APARTMENT 14

HEIGHTS 777 · APARTMENT 14

Welcome, Horizon Growth Limited.

Apartment 14 at Heights 777 is yours: the centre residence on the fifth floor, with two bedrooms that each have their own dressing room and bath, a living room that opens south over Parakou Street and a quiet run of rooms along the north. These sheets walk you through the building, your residence, its plan and the materials it is built from.

Heights 777 from Parakou Street · visualisation

Eighteen residences, three to a floor.

Heights 777 is a seven-storey residential building on Parakou Street, in the residential heart of Wuse II. Eighteen residences occupy six floors above an open arrival and parking level, served by two lifts and three stairs: a lift and main stair at each end of the lobby, and a back stair by the courtyard.

Every residence opens onto a planted balcony behind a frameless glass balustrade, and every slab edge carries a continuous strip of warm light. Your residence is the centre one of the three on the fifth floor, between the two lift cores.

SITE	1,136.4 m², walled; the plot fronts Parakou Street along its full southern edge
BUILDING	35.25 × 14.58 m · 514 m² footprint, 46 per cent of the plot
STOREYS	Seven: six residential floors over the arrival and parking level
RESIDENCES	Eighteen: sixteen two-bedroom residences and two one-bedroom penthouses on the fifth and sixth floors
CIRCULATION	Two passenger lifts and three stairs, from the parking level to every floor
PARKING	21 bays, beneath the building and along the plot edges; a gate house on the street
HEIGHT	3.15 m floor to floor · roof slab +22.05 m · parapet +23.55 m
TEAM	Development by Wrace Group · architecture by A365 Designs, drawings October 2025

Apartment 14 YOUR RESIDENCE
Fifth floor, the centre of the plan

Indicative, drawn in metres from site plan sheet A101 (October 2025) · north to the top · bay positions approximate

From above · the balconies stepping down to the street

A quiet street between Maitama and the city.

Parakou Street runs through the residential heart of Wuse II, a few minutes from the restaurants and shops of Aminu Kano Crescent, with Maitama to the north and the Central Business District to the south-east. Some maps call it Parakou Crescent.

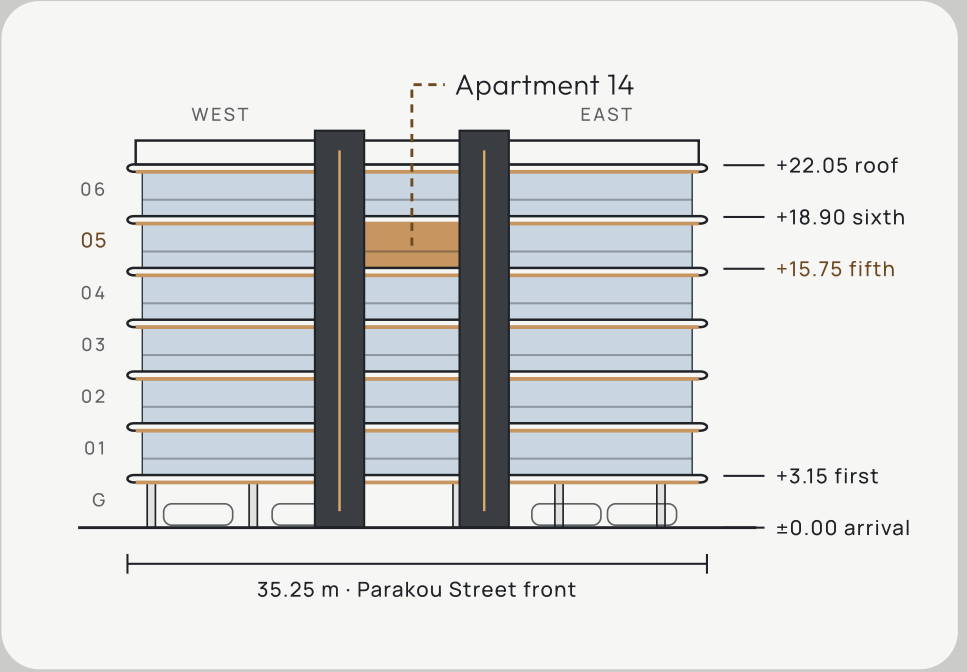

0.4 KM	Aminu Kano Crescent: restaurants, shops and banks
5 MIN	Maitama, the embassies and the Transcorp Hilton
10 MIN	The Central Business District, Wuse Market and Banex Plaza
15 MIN	Jabi Lake Mall and the Jabi lakefront
40 MIN	Nnamdi Azikiwe International Airport, by the airport road

Drive times are approximate and off-peak.

The centre residence, five floors up.

Apartment 14 sits at the middle of the fifth floor, between the two lift cores, with the west penthouse on one side and the east residence on the other. The living room faces the street; the kitchen and both bedrooms run along the quiet north side, and there is a balcony front and rear.

RESIDENCE	Apartment 14 · the centre residence of three on the floor
LEVEL	Fifth floor of six · slab at +15.75 m · 3.15 m floor to floor
BEDROOMS	Two, each with its own walk-in dressing room and bath
LIVING	Living room facing south over Parakou Street; a separate kitchen on the north side
ALSO	Entrance lobby and a guest WC
BALCONIES	Front and rear, with frameless glass balustrades and planters
NEIGHBOURS	The west penthouse and the east residence; the sixth floor above
ARRIVAL	From the gate to the parking level, then by lift to the fifth-floor lobby

Front elevation, schematic · from Parakou Street · levels from the October 2025 drawings; core positions from the site plan

Two aspects

The living room and its front balcony look south over Parakou Street. The kitchen and both bedrooms sit along the north side of the plan, away from the street, opening to the rear balcony.

Every bedroom a suite

Both bedrooms have a walk-in dressing room and a bath of their own, and the guest WC sits by the entrance, so visitors never pass through the private side.

Light along every edge

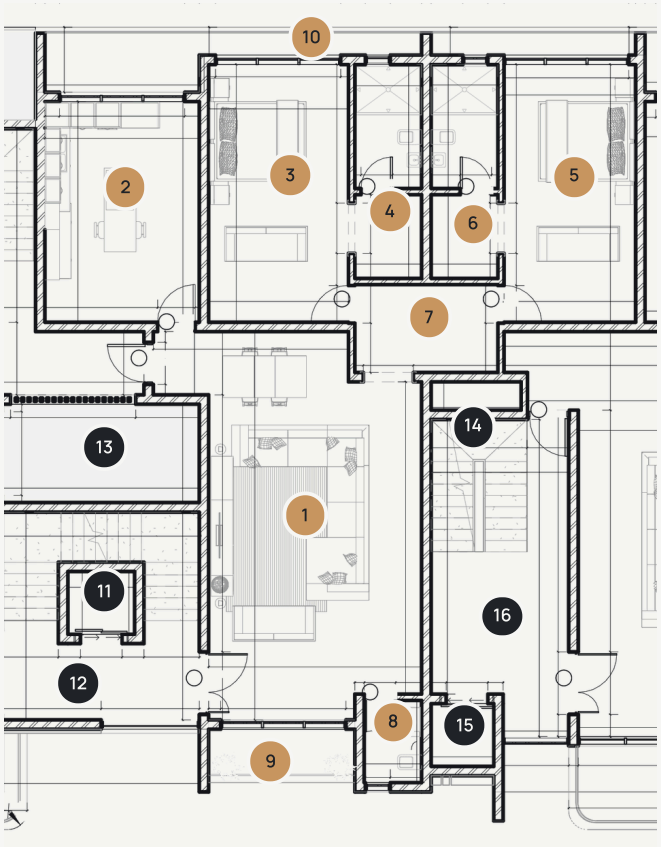

The curved slab beyond your front balcony carries a recessed strip of warm light along its full length. At dusk the fifth floor is drawn as a single line.

The front at dusk · a line of light along every slab edge

Your residence, read room by room.

Apartment 14 on its own, then the whole fifth floor around it. North is at the top; Parakou Street runs beyond the front balconies at the foot. The numbers key to the room lists.

Apartment 14 · north to the top · the front balcony at the foot

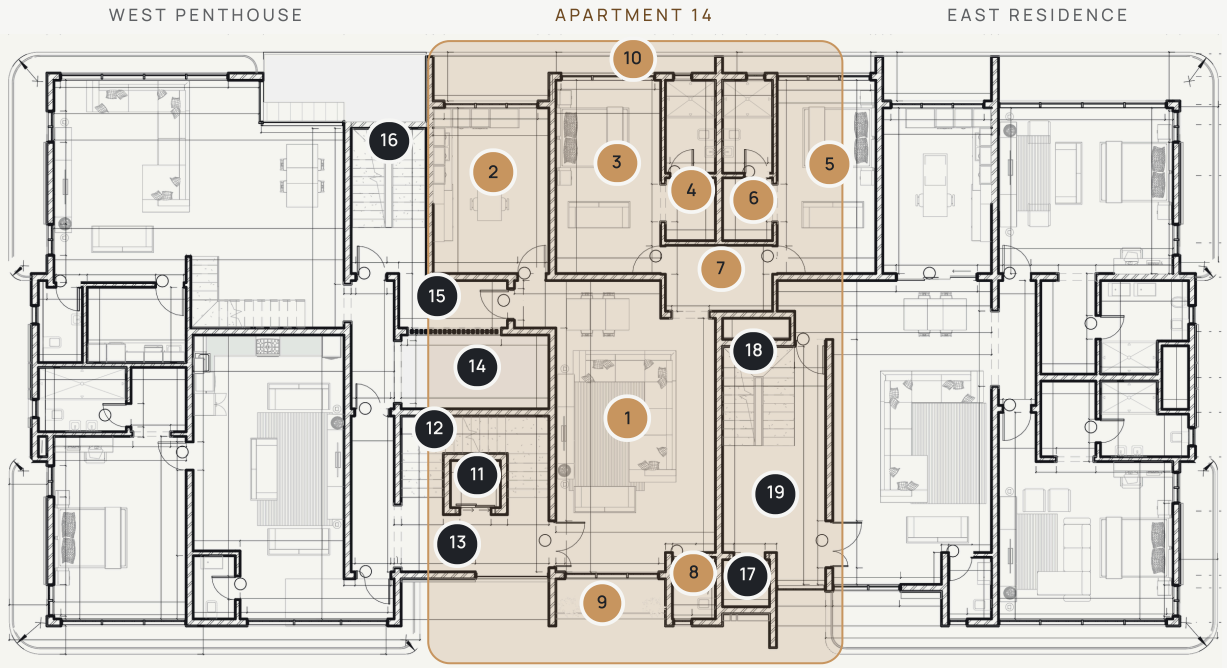

Apartment 14

FIFTH FLOOR · +15.75 M · TWO BEDROOMS

The living room sits at the centre of the plan and opens south to the front balcony over Parakou Street, with the guest WC beside it. The kitchen and both bedroom suites run along the north side, opening to the rear balcony; the entrance lobby links the two halves.

The fifth floor

THREE RESIDENCES · TWO LIFT CORES

Apartment 14 is the centre residence, shaded on the plan. The west penthouse, a one-bedroom residence with a second lounge, takes the left of the floor and the east two-bedroom residence the right; the lift cores and the courtyard lightwell sit between them. The sixth floor repeats the plan, with an infinity pool at the west penthouse.

Plan redrawn from the architectural drawings of October 2025 with dimensions and annotations removed; the numbered markers sit where the rooms are labelled on the sheet. The fifth and sixth floors share this plan. Layouts are indicative and remain subject to final design.

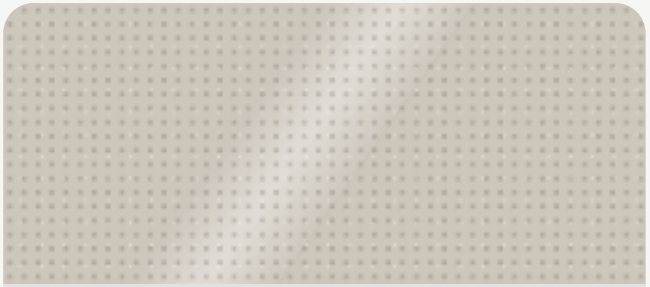

One standard, every floor.

Finishes and systems as set out in the architectural drawings and schedules. Selections shown in the visualisations are indicative of quality and tone.

M01

White slab edge

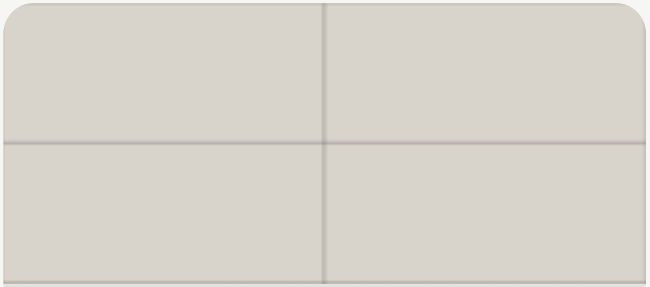

Curved balcony slabs with a recessed continuous LED strip

M02

Polished granite

1200 × 600 mm, in the living room and lobbies

M03

Vitrified tile

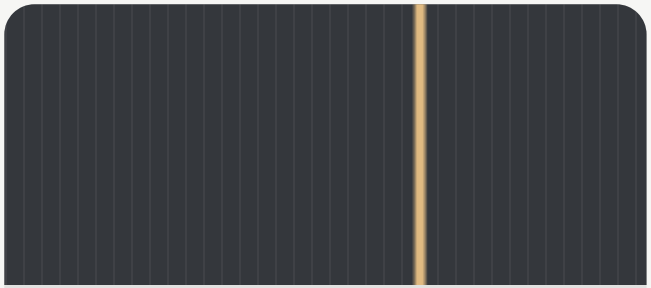

600 × 600 mm floor tiles in the bedrooms

M04

Frameless glass

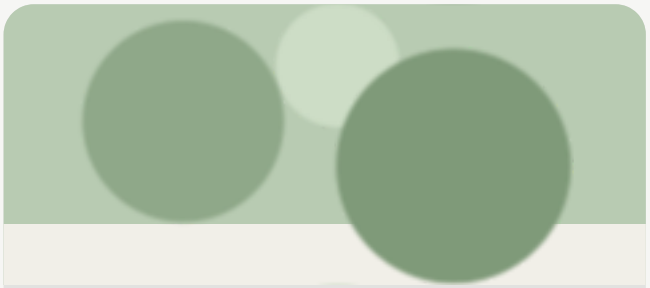

Balustrades and full-height sliding doors to the balconies

M05

Charcoal core

Dark stone-effect cladding with slender vertical light lines

M06

Planters

Integral planters along every balcony edge

Structure & envelope

FRAME	Reinforced-concrete frame with 350 mm beams; 3.15 m floor to floor on every level
WALLS	230 mm sandcrete block in stretcher bond; the lift and stair cores clad in dark stone-effect panels
BALCONIES	Curved slab edges with recessed continuous LED lighting; frameless glass balustrades; integral planters
ROOF	0.9 gauge longspan aluminium sheeting, PU-insulated, on a steel truss behind a 1.5 m parapet

Openings & security

ENTRANCE	Double-panel composite pivot security door to the residence and the lobby
TO BALCONIES	Triple-panel glass sliding doors on aluminium frames from the living room, bedrooms and kitchen
INTERNAL	Steel security swing doors on aluminium frames to the bedrooms and kitchen; glazed cut-out doors to lobbies and terraces
SITE	Walled plot with a 13 m² gate house and a screened vehicle entrance on Parakou Street

Finishes

LIVING & LOBBIES	1200 × 600 × 12 mm polished granite on a 50 mm screed
BEDROOMS	600 × 600 × 10 mm vitrified floor tiles
BATHROOMS	Both bedrooms en suite, each with its own walk-in dressing room; a guest WC by the entrance
PARKING LEVEL	600 × 300 mm glazed ceramic tiles on screed at the arrival level

Circulation & arrival

LIFTS	Two passenger lifts, one in each core, from the parking level to every residential floor
STAIRS	A main stair beside each lift, and a back stair by the courtyard
PARKING	21 bays: beneath the building at the arrival level and along the plot edges
DAYLIGHT	A lightwell courtyard beside the core brings daylight into the lobbies on every floor

Seven views, two skies.
